

Performance Report

I did 3 test run, here are the results:

Run 1

Request Count: 1200

Requests/s: 29.939854627700200

Failure Count: 0

Average Response Time: 65.6160789 ms

90th percentile response time: 91 ms

Run 2

Request Count: 1595

Requests/s: 39.94582179

Failure Count: 0

Average Response Time: 49.07050013 ms

90th percentile response time: 70 ms

Run 3

Request Count: 1785

Requests/s: 44.62707957

Failure Count: 0

Average Response Time: 43.91625219 ms

90th percentile response time: 66 ms

You can find the logs in performance_test_log1.csv, performance_test_log2.csv, and performance_test_log3.csv

The instruction for running performance testing code is in the README.md

Run	Name	Request Count	Failure Count	Median Response Time	Average Response Time	Requests/s	Failures/s	50%	66%	75%	80%	90%	95%	98%	99%	99.90%	99.99%	100%
1	Aggregated	1200	0	54	65.6160789	29.93985463	0	54	55	59	62	91	97	160	270	1200	1200	1200
2	Aggregated	1595	0	39	49.0705013	39.94582179	0	39	45	53	54	70	80	93	99	3100	3100	3100
3	Aggregated	1785	0	39	43.91625219	44.62707957	0	39	42	46	53	66	79	87	95	150	150	150
